

1 JULY 2012

Introducing Resources for Technology Specialists

TO: Technology Specialists

FROM: Meetinghouse Technology Team

Thank you for your dedicated service. Based on your calling, you have been added to the Stake and District Technology Specialist e-mail subscription list located in your LDS Account. If you are no longer serving in this capacity, contact your stake or district clerk to update your calling in MLS, and you will be removed from this list.

The meetinghouse technology team at Church headquarters will use this private, role-based e-mail list to help you stay current with the following:

- Your role and responsibilities as a technology specialist
- New and existing technology in the meetinghouse
- Church policy
- Training resources
- Pilot projects testing new technology
- Support options
- How to order equipment (procurement process)

You can also go to <http://mhtech.lds.org>. The site is in English, but by the end of the year we will have moved all content to LDS.org and translated it into ten languages. You can follow the project's progress at the forum, [Meetinghouse Technology Content moving to LDS.org](#), on LDSTech.

If you have feedback for our team, please use the following e-mail address:

mhifedback@ldschurch.org.
