{comments on}

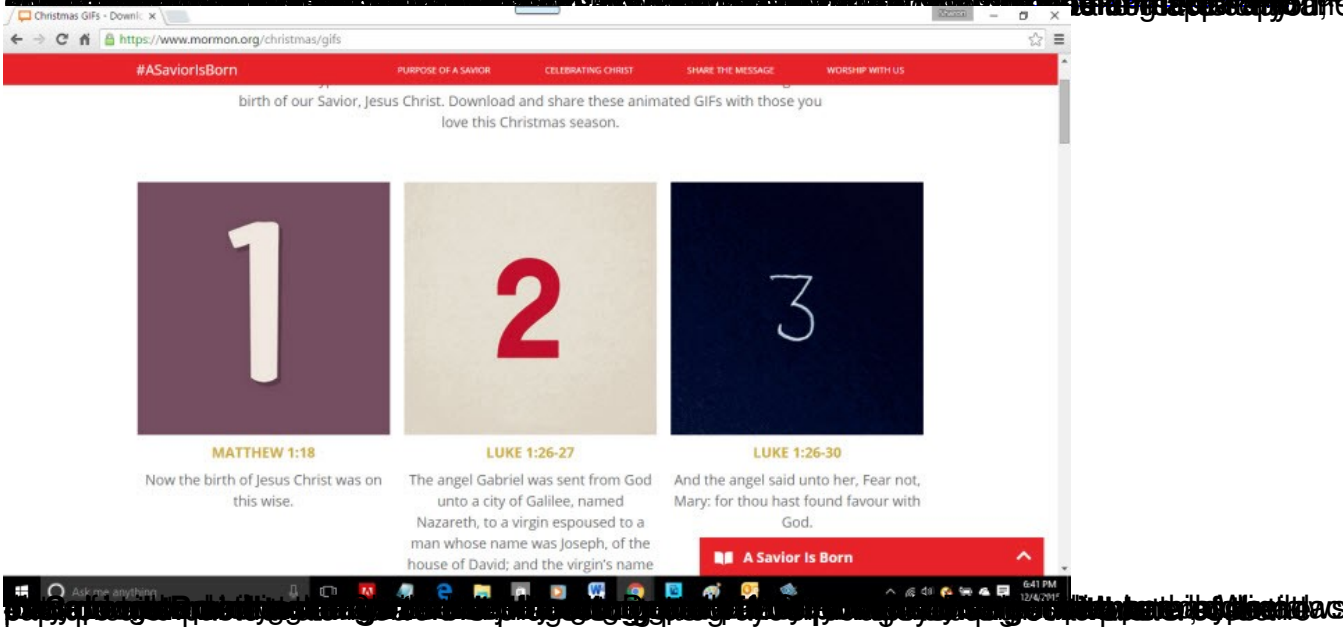

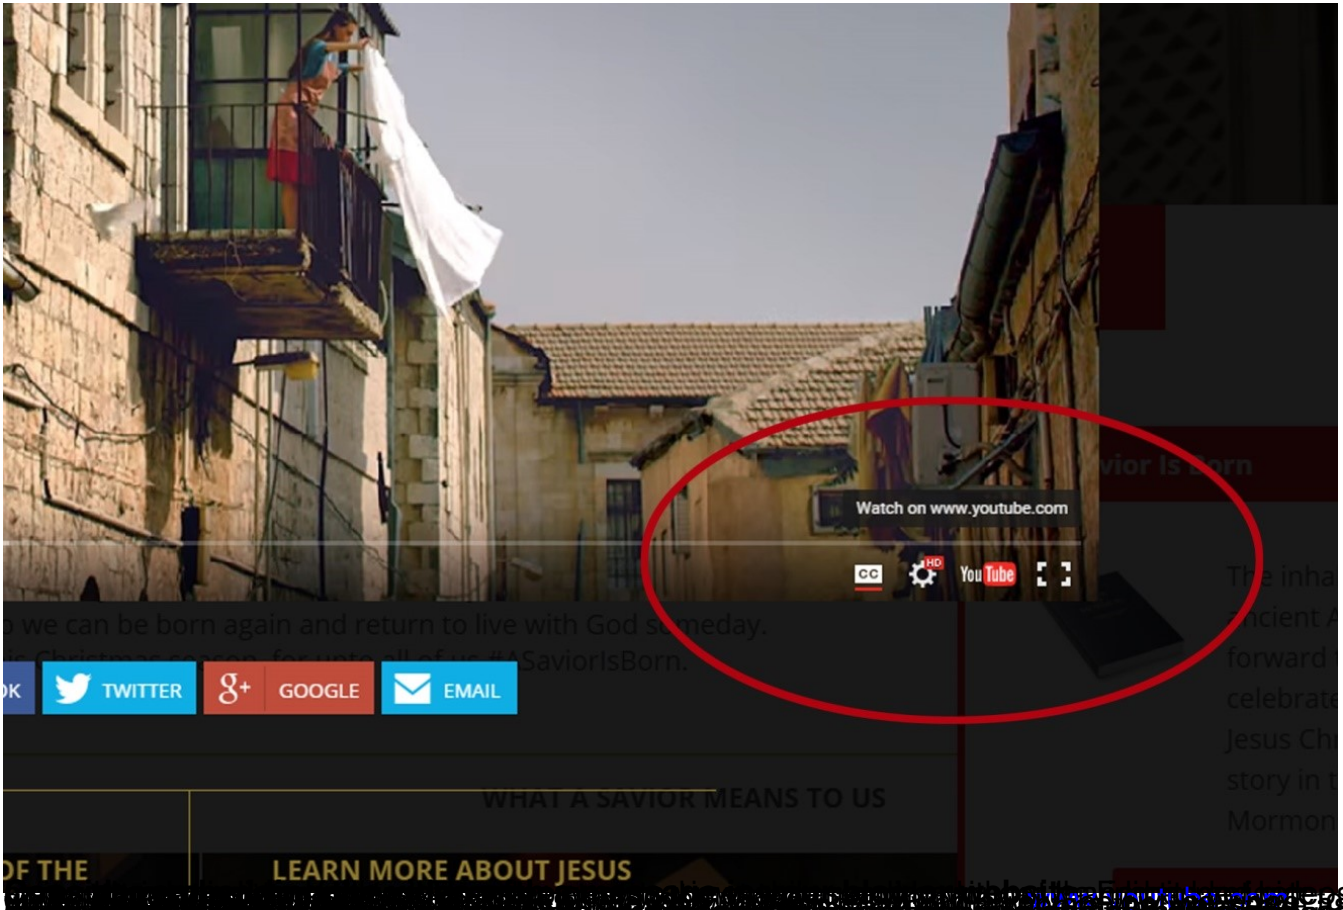

The Church has announced a new world-wide Christmas initiative and released original media content with the theme "A Savior is Born." You are invited to use the content, add your own creative touches, and help to "flood the earth" with messages of the Savior Jesus Christ throughout the Christmas season.

You'll find the content at Christmas.mormon.org and other Church media sources. Combine the content with resources close at hand to use in personal ways that adapt to your needs and preferences. Here are some ideas using technology and the short Christmas video, the animated GIFs, still images, and three print-and-share posters.
