Sell the idea more down here...

- Also available on mobile
- Device Agnostic
- Upload your csv from MLS quickly
- Still another awesome feature that blows yer mind

Manage Lists

could potentially put all dashboard stuff on the main accounts page instead, streamline

could put 'manage lists' in profile drop down and not have a left nav at all...

Could pick a list, it would dynamically select a new URL and display a new list, SPA all on one page

modular cubes might be better as rectangles, or even accordions

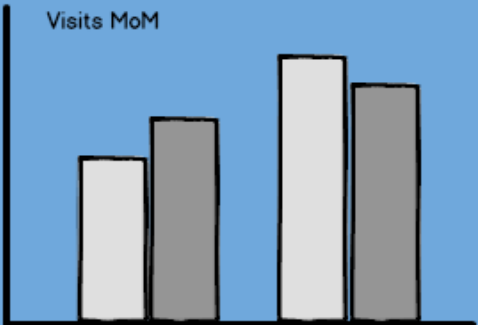

Your URL: <http://Brandname.com/TaylorNelson/12345.php>

open your mobile device's browser to this URL to begin collecting reports
